Commissioners,

As you discuss the role of the AAC, please keep in front of mind that this is the only airport governing body that has direct involvement from members of the public. I believe that it is good practice to reassess the purpose and success of bodies like this. As things evolve, they can move away from their intended purpose, either procedurally or in spirit.

If there are efficiencies to be made, or redundancies to be eliminated, it cannot be at the expense of community involvement.

Thank you,
